

ARPAN SHETH

UX Designer — Enterprise Product Design

Ahmedabad, Gujarat, India | mrarpansheth@gmail.com | [LinkedIn](#) | [Portfolio](#)
Open to Relocation Anywhere in Germany | 90-Day Notice Period

PROFESSIONAL SUMMARY

UX Designer with 5+ years of experience designing enterprise-scale digital products across Healthcare, Travel, and EdTech. Currently with GE Healthcare (via Tata Consultancy Services), where I've supported the growth of enterprise workflow applications from roughly 50 to over 2,000 global users. Skilled across the end-to-end design process — user research, information architecture, interaction design, prototyping, usability testing, and design systems — with working knowledge of Angular/AngularJS front-end technologies that supports close collaboration with engineering teams. Recognized with a Best Team Award and an On-the-Spot Award for delivery impact in Agile environments.

CORE SKILLS

Product & UX: User Research, Information Architecture, Journey Mapping, Interaction Design, Wireframing & Prototyping, Design Systems, Usability Testing, Accessibility

Technical: Angular, AngularJS, JavaScript, HTML5/CSS3, REST APIs, Power BI

Tools: Figma, Adobe XD, Photoshop, Confluence, Rally

Ways of Working: Agile/Scrum, Stakeholder Management, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — UX Designer

Mar 2021 — Present

Full-time | Client: GE Healthcare | Enterprise Healthcare Applications

- Design enterprise healthcare workflows, operational dashboards, and reporting experiences used by global business and operations teams.
- Supported platform growth from ~50 to 2,000+ global users by improving workflow visibility and reducing friction in core operational tasks.
- Redesigned the invoice cancellation workflow, simplifying a multi-step exception-handling process and improving visibility into processing status for operational users.
- Designed operational dashboards that consolidated key workflow and business metrics, improving how quickly stakeholders could act on reporting data.
- Led stakeholder workshops and requirement-gathering sessions, translating business requirements into user-centered workflows in partnership with Product Owners, BAs, and engineering.
- Built reusable UX patterns and components, improving design consistency and delivery speed across multiple application modules.
- Collaborated with Angular-based front-end engineering teams during implementation, drawing on working front-end knowledge to reduce design-dev handoff friction.
- Recognized with Best Team Award and On-the-Spot Award for delivery contributions in Agile environments.

INDEPENDENT PROJECTS

Undertaken independently, part-time, outside full-time working hours.

Pareexa.ai — Product Design Advisor (Freelance)

Sep 2025 — Mar 2026

AI-powered UPSC exam preparation platform

- Advised founders on product strategy and UX direction for a new AI-driven learning platform.
- Designed end-to-end student learning journeys, including assessment flows, performance tracking, and personalized study paths.
- Established a scalable design system and component library to support the platform's growing set of learning modules.

GolfPac Travel — Product Designer & Frontend Developer (Freelance)

Aug 2024 — Sep 2025

US-based golf vacation booking platform

- Redesigned core booking and trip-planning flows, improving destination discovery and package/quote request journeys.
- Restructured AngularJS controllers as part of a frontend modernization effort, improving code maintainability.
- Worked directly with the client's stakeholders to prioritize and deliver UX improvements, combining design and front-end implementation.

TasteX — Product & UX Design (Freelance)

Jan 2024 — April 2024

Independent cloud kitchen — ordering and operations experience

- Designed a customer-facing ordering flow and a kitchen-side order-tracking experience for an independent cloud kitchen business.
- Delivered a lightweight, functional UX for a small operation, applying the same end-to-end design approach used on larger enterprise projects.

AWARDS & RECOGNITION

- Best Team Award — Tata Consultancy Services, for contribution to successful delivery of enterprise healthcare initiatives.
- On-the-Spot Award — Tata Consultancy Services, for exceptional individual performance and project contribution.

EDUCATION

Bachelor of Engineering — Information Technology

2015 – 2019

Gujarat Technological University (GTU)

LANGUAGES

English — Fluent | German — A1 | Hindi & Gujarati — Native
